

Kit Changes, Version 3.1 to Version 4

Citizen Grand Jury Petition Kit · v4 · September 27, 2026

Every kit is now two documents: the petition, with its signature pages, and one instruction sheet. The instruction sheet replaces the cover, checklist, timeline, explainer and talk track, and it answers the objections filers hear. If you started collecting on an earlier version, read your county's entry before you collect another signature.

Tulsa County, OK

If you started on an earlier version: In Oklahoma a drive starts only after the presiding judge approves its petition, so keep collecting on your approved petition and its approved signature sheet, and file within 45 days of the approval order. Do not print version 4 petition pages or sheets for that drive, and a petition already filed for the judge's review stays as filed. Use the version 4 instruction sheet for the steps after the approval order and for the time limits, and add nothing to your approved sheet. Skip any version 4 step that refers to a line your sheet does not carry, such as the "Person filing" line. At the table, open with the version 4 opening line and say nothing about the petition beyond what your approved petition states. Do not use the version 4 answers "If they want more", "What if officials say no data was shared?", "What if officials say the copy of the master file was secure?", "Why Tulsa County?" and "Is there a provable harm?", which describe the version 4 petition. Check the Court Clerk's records until the day you file for any grand jury convened in Tulsa County on a citizen petition this year and for any earlier citizen petition still pending; if either is found, collect toward 10,000.

1. In a calendar year in which a grand jury is convened in Tulsa County on a citizen petition, every later petition filed that year needs 10,000 valid signatures (Article II, Section 18 of the Oklahoma Constitution).
2. No grand jury may be convened or stay in session from October 4 through November 13, 2026, the period around the November 3 election (22 O.S. sec. 345). The petition asks that the grand jury convene subject to that rule.
3. The petition cites the chief data officer's August 26, 2025 whistleblower disclosure and alleges, on information and belief, that Tulsa County residents' records were among the data. Its venue section rests on 22 O.S. sec. 124 and cites *Bozarth v. State*, 1934 OK CR 130.
4. The first page takes the filer's name and a mailing address for court notices. The mailing address is filled in only on the copy filed for the judge's review, and a post office box works there. Signature sheets carry the filer's name only, and the petition asks the judge to approve the signature sheet in the same order that rules on the petition.

Nelson County, ND

If you started on an earlier version: Keep collecting on your sheets without changing them. From now on, take only the address where each signer lives, a street or rural 911 address. Before filing, do not count any line whose address is not where the signer lives, such as a post office box or rural route box alone, and collect replacements; if a signer signs again with a residence address, strike the earlier line. The kit's "Filing set for earlier versions" folder holds a filing copy of the September 8 text and a filing copy of the version 3.1 and 3.2 text. The other files named below are in the same folder. On the September 8 sheets, file as "Filing Instructions - Nelson County ND" directs. On version 3.1 or 3.2 sheets, file at one time with the Clerk of District Court, 210 B Ave W, Suite 203, Lakota, ND 58344, and ask that the petition be presented to the district judge: the version 3.1 and 3.2 filing copy, its verification, the Statement on Venue and every signature packet. For that verification, three signers who live in Nelson County each sign one page of "Verification of Petition - Nelson County ND", stapled directly behind the filing copy, or sign the verification printed at the end of that copy together before one notary, each writing a telephone number beneath the signature. The petitioners who file sign the Statement on Venue, each writing beneath the signature the "name, address, and telephone number" that N.D.R.Ct. 3.1 requires. At the table, open with the version 4 opening line and say

nothing about the petition beyond what your printed petition states. Do not use items 2 to 4 of "While collecting" on the version 4 instruction sheet, which describe the version 4 petition.

1. Who may sign: a United States citizen, 18 or older, who lives in Nelson County (N.D.C.C. 1-01-49(24)). There is no 30-day precinct rule.
2. At filing, three petitioners who signed and live in Nelson County each swear to the verification before a notary, with a separate jurat for each, and write beneath the signature the "name, address, and telephone number" that N.D.R.Ct. 3.1 requires. The blocks are filled in only on the copy filed as the verified petition.
3. The petition quotes N.D.C.C. 29-03-04 in full and pleads effects in Nelson County and the other North Dakota counties. It also answers N.D.C.C. 29-03-01 and 29-03-01.1, on offenses begun outside the state.
4. File the verified petition and every signature sheet together with the Clerk of District Court, 210 B Ave W, Suite 203, Lakota, ND 58344, and ask that the petition be presented to the district judge. No statute sets a fee for filing the petition.

Douglas County and Lancaster County, NE

If you started on an earlier version: Signatures on version 3.1 or 3.2 sheets cannot be filed, because those sheets print the circulator's signature line and the notary block on a second page, apart from the signatures, and Neb. Rev. Stat. sec. 32-628(3) requires the affidavit on every sheet, below the signatures. Gather new signatures on version 4 sheets, circulated with the version 4 petition, and keep the signed version 3.1 and 3.2 sheets private, because they show signers' dates of birth and addresses. On the September 8 kit, or any other version before 3.1, finish on the sheets you started with, because every sheet in one petition must carry the same text. Before filing, measure one printed sheet between the printed lines: the signature column must be at least 2.5 inches wide and the printed-name column at least 2 inches (Neb. Rev. Stat. sec. 32-628(1)), and a sheet printed smaller than full size can fall below them. Circulators keep stating the object printed on the sheets they are using. At the table, say nothing about the petition beyond what your printed petition states.

1. The signature sheet prints on one 8.5 x 14 legal page, with the circulator's affidavit and the notary block below the signature lines, as Neb. Rev. Stat. sec. 32-628(3) requires. The sheets carry no filer contact details.
2. The petition again alleges identity theft under Neb. Rev. Stat. sec. 28-639, as the September 8 kit did. Identity theft may be tried in the county where a victim resides (sec. 28-637(1)), and prosecution must begin within five years (sec. 29-110(7)).
3. The object printed on the petition and on every sheet asks the grand jury to inquire whether members of the DOGE Team transmitted, stored, copied or disclosed records containing county residents' personal identifying information, and it names both statutes the petition cites. Circulators read the object exactly as printed.
4. A petition validated after the November 3, 2026 election is measured against the 2026 county vote for Governor, and the number becomes ten percent of that vote, rounded up. The contact petitioner lines take a mailing address for court notices, where a post office box works, and are filled in only on the copy that is filed.

Shawnee County, KS

If you started on an earlier version: Keep collecting on the sheets you started with and file them together. On sheets that print "2026" or "County of Shawnee" in the notary block, the notary corrects the year or the county on any page sworn in 2027 or outside Shawnee County. At the table, open with the version 4 opening line and say nothing about the petition beyond what your printed petition states. The version 4 answers "If they want more" and "What if officials say no data was shared?" describe the version 4 petition, which cites a whistleblower disclosure your petition does not.

1. October 20, 2026 was never a legal deadline. A petition filed or certified after November 3, 2026 may be measured against the 2026 vote for governor and should carry enough valid signatures to meet the number on both the 2022 and the 2026 vote. Confirm the number with the Shawnee County Election Office before filing.

2. The petition adds the whistleblower disclosure of the agency's then chief data officer, and what three judges of the federal appeals court and the district court said about the government's admissions. The petitioners allege on information and belief that county residents' records were among the data.
3. The circulator of each page is its verifier, so the circulator must be a registered voter of Shawnee County who signs that page and reads the whole petition before verifying any page.
4. The filer is the grand jury's first witness and appears when summoned. The petition's face carries "the name, address and phone number of the person filing the petition", as K.S.A. 22-3001(c)(2) requires, and so does every signature page.

Santa Fe County, NM

If you started on an earlier version: Stop collecting on version 3.1 pages and gather new signatures on version 4 pages. Every sheet in one petition must carry the same text, so pages signed on version 3.1 cannot be filed with version 4 pages. Keep the signed version 3.1 pages private, because they show signers' names and addresses. Anyone who signed a version 3.1 page may sign a version 4 page. Versions 1.1, 1.2, 3.0 and 3.2 were built but never released, and pages signed on any of them are handled the same way.

1. The petition alleges, on information and belief, that Santa Fe County residents' records were among the data shared or copied, and it quotes the government's filing word for word.
2. The petition adds the chief data officer's whistleblower disclosure and New Mexico's identity theft statute, Section 30-16-24.1 NMSA 1978, as a second offense.
3. For identity theft, the statute places the crime in the county where the person whose information was taken lived. For unauthorized computer use, venue rests on Section 30-1-14 NMSA 1978, which the petition quotes in full, and on the damage element, which includes the cost of protecting county residents.
4. The first page asks for a mailing address for court notices, and a post office box works there. Signature pages carry the filer's name only.

Bernalillo County, NM

If you started on an earlier version: No earlier Bernalillo County kit was published, so every Bernalillo County drive starts on this version. Versions 3.1 and 3.2 were built but never released, and anyone holding pages signed on either keeps them private and starts again on this version.
